3.	Valium Oral Tablet 10 MG	<input checked="" type="checkbox"/>

Patient Name: Disney, Walt

### Valium Oral Tablet 10 MG

Read this medicine information sheet carefully each time you get this medicine filled.

#### Diazepam Tablets

Pronunciation: (dye-AZ-e-pam)  
Brand Name: Valium

#### This medicine is used for:

Treating anxiety disorders or for the short-term relief of the symptoms of anxiety. It is also used to relieve certain types of muscle spasms and to treat symptoms of alcohol withdrawal (eg, agitation, tremor, hallucinations). This medicine is also used with other medicines to treat certain types of seizure disorders. It may also be used for other conditions as determined by your doctor.

This medicine is a benzodiazepine. It works by increasing the action of a certain chemical (gamma-aminobutyric acid (GABA)) in the brain and nervous system. This helps to reduce anxiety. It also helps to reduce seizure activity in the brain and to reduce muscle spasms.

#### Do NOT use this medicine if:

- you are allergic to any ingredient in this medicine
- you have acute narrow-angle glaucoma or untreated open-angle glaucoma, certain muscle problems (eg, myasthenia gravis), severe liver problems, severe breathing problems, or sleep apnea
- you are taking an HIV protease inhibitor (eg, ritonavir) or sodium oxybate (GHB)

Contact your doctor or health care provider right away if any of these apply to you.

## 8. Documents Tab

- The worker can view any documents the office sends to the worker portal.
- The office will click on the document type link in the settings module.
- Click on the link for add new document
- Name the document and check the box for worker portal
- Click on Save.
